

Benjamin Stam

National Property Specialist

London, ON

Overview

Benjamin Stam is a Senior Consultant specializing in cost consulting and damage quantification for insurance, municipal, and legal clients. With a background in construction management and accounting, he combines technical insight with financial knowledge to support high-stakes claims and rebuild strategies.

He has completed pre- and post-loss valuations for municipalities and public-sector clients across Canada, including replacement cost assessments for over 50 municipal and community-use structures. Benjamin regularly prepares scopes of work, RFQs, and expense audits for large-scale claims involving infrastructure loss, catastrophic damage, and litigation support. His combined field and forensic experience ensures accurate documentation and timely, defensible outcomes for stakeholders.
