

Brad Flemming

National Property Specialist

Regina, SK

Overview

Brad Flemming is a National Property Specialist and cost consultant with over 20 years of experience across the construction, insurance, and oil & gas sectors. With a background that spans field operations, procurement strategy, and contract negotiation, he has supported large-scale infrastructure builds and complex property claims involving fire, flood, structural collapse, and regulatory risk.

Brad specializes in scope development, RFQ management, and high-liability appraisals, including heritage commercial properties, residential portfolios, and industrial facilities. He is prepared to deliver audit-ready documentation and actionable recommendations to support insurers, risk managers, and asset owners.
