Dan Clavette

National Property Specialist

Kelowna, BC

Overview

Dan Clavette is a senior cost consultant and large-loss catastrophe specialist with approximately 20 years of experience in property-loss assessment, restoration, construction cost consulting, and operational leadership across Western Canada. The background combines hands-on restoration delivery with independent evaluation of repair and reconstruction costs. For Pario Quantify, Dan reviews and analyzes large-loss claim costs against expected repair and reconstruction costs; develops estimates and cost-control assessments using Xactimate and Symbility. He supports complex property loss and catastrophe-related scope and valuation assignments.

Education & Professional Development

- IICRC training/credentials reported: Water Restoration Technician (WRT), Fire and Smoke Restoration Technician (FSRT), and Applied Microbial Remediation Technician (AMRT).
- Asbestos certification**, Northern Alberta Institute of Technology (NAIT)**, 2017.
- Additional training: WHMIS, asbestos awareness, first aid, respiratory fit testing, defensive driving, and Alberta flag person
