

## Gary Crockford

National Property Specialist

Toronto, ON

### Overview

Gary Crockford is an experienced consultant with over 45 years in the Construction and Insurance industries. He gained early experience in civil underground services, custom home building, and subdivision construction, working across both private and public projects. In 1996, he entered the insurance industry, working as an Adjuster and Estimator across multiple national and international insurers. For 11 years, Gary gained diverse cost consulting experience as a Senior Insurance Assessment Project Manager for a global construction company. He later joined Pario Quantify in 2026.

Gary has extensive experience handling large losses throughout Canada and regularly consults on large complex claims, including malls, high rises, condominiums, manufacturing, residential, agricultural, and mining. He has participated in several appraisals for both insurers and public adjusters and provided services as an expert witness to numerous law firms.
